Methods-Supplement

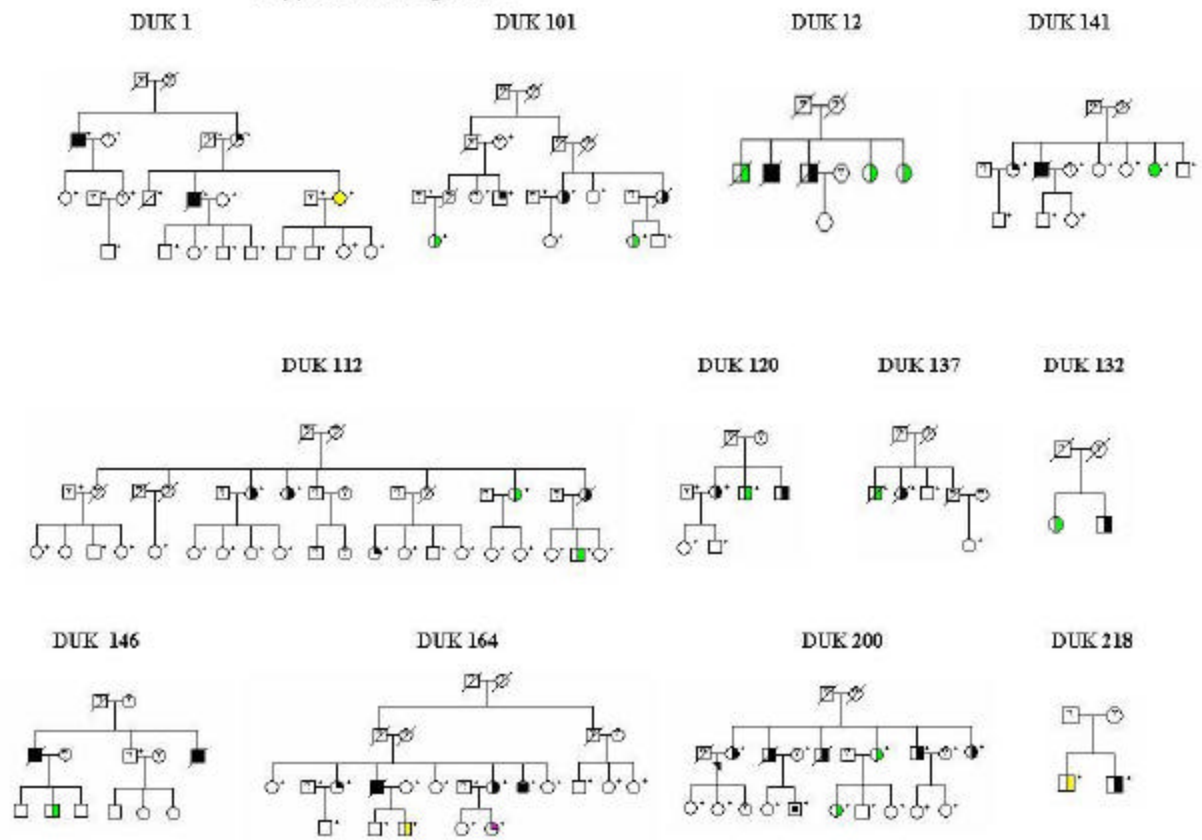

ATS Dyspnea Scale: In this scale, dyspnea is rated as 0-absent; 1-shortness of breath when hurrying on level ground or up a slight hill; 2-walking slower than people your own age on the level because of breathlessness; 3-having to stop for breath when walking at your own pace on the level; 4-having to stop for breath after walking 100 yards (or after a few minutes) on the level; or 5- too breathless to leave the house or breathless on dressing or undressing.

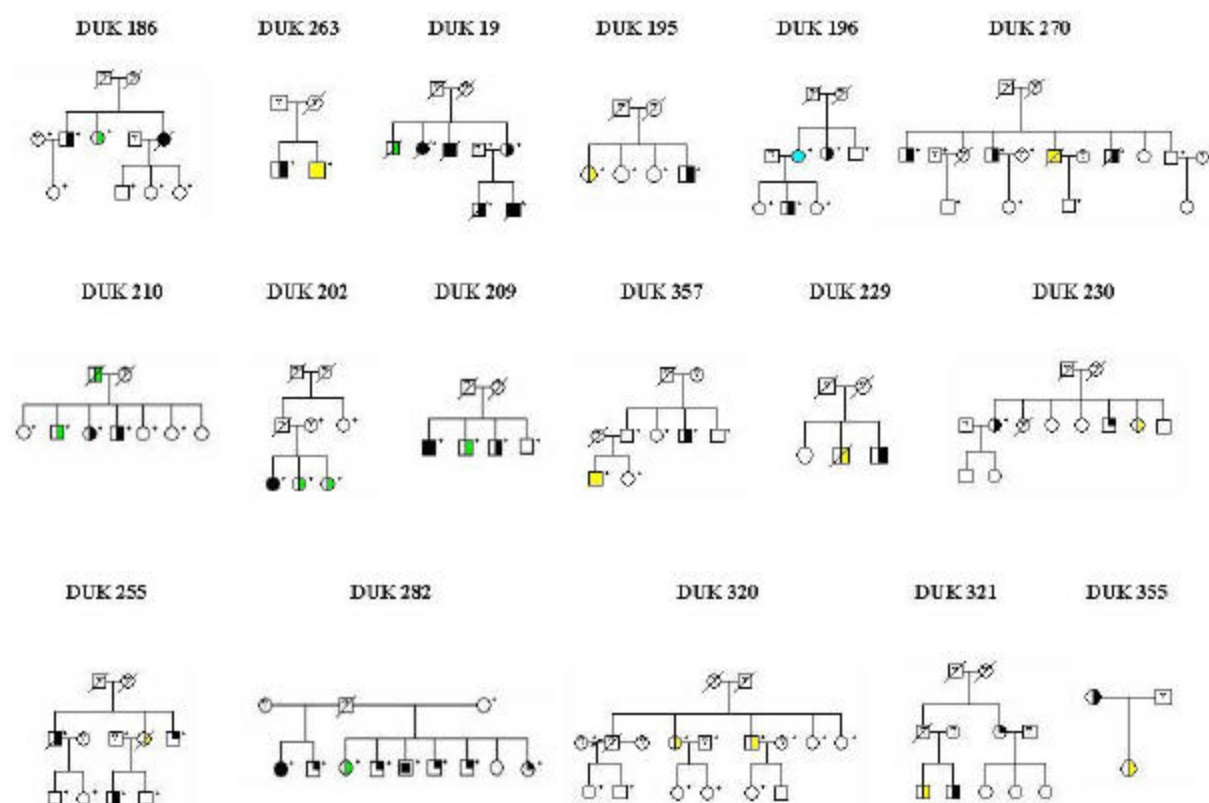

Supplemental Figure Legend:

Supplemental Figures E1-E7. Pedigree figures depict relationships and diagnostic status for 111 FIP pedigrees. Not all individuals with possible FIP, unaffected, or unknown individuals are shown on pedigrees as a result of pedigree trimming for presentation purposes.
